LOUISA, LAWRENCE COUNTY, KENTUCKY, OCTOBER 1, 1920.

LOUISA GAINED FIFTY PER CENT

CENSUS REPORT JUST ISSUED SHOWS LARGE GROWTH FOR CITY, BUT LOSS FOR LAWRENCE COUNTY.

The 1920 census gives the population of Louisa 2011 as against 1366 in 1910. This is practically 50 per cent increase, which is a very creditable showing, especially when no organized effort was made within that period to boost the town. Louisa had 1099 in 1900.

The county of Lawrence, however, has made a very bad record, having lost 121 per cent. The 1920 figures are 17,648 against 20,677 in 1910, and 19,813 in 1900. This loss is due to bad roads more than anything else. We have repeatedly called attention to the fact that people were leaving the county for this reason, but we are surprised at the extent of the migration.

Nothing more serious could happen to a county than the loss of the class of people who aspire to better conditions strongly enough to break loose from home ties and go out into strange lands. They have energy and ambition, the qualities that produce things needed in every community.

The town of Blaine shows 103 population compared with 136 in 1910, and 134 in 1900. Fallsburg 87 against 134 in 1910 and 159 in 1900.

Morgan county has increased 259 in 10 years, the total now being 16,512. West Liberty, the county seat, has 461 as compared with 442, a gain of 19 persons.

The magisterial districts showing the greatest loss were 4, 5 and 7, which include the two districts surrounding the town of Blaine, and the Fallsburg district.

Population of Wayne County, West Virginia

The new census gives our neighbor county of Wayne, W. Va., 26,012 a gain of about 2000 over 10 years ago.

Fort Gay has 617 people.

Ceredo 1110, an against 1215 ten years ago and 1279 in 1900.

Wayne has 861.

Kenova is the largest city, having 2162, a gain of more than 100 per cent in 10 years.

CENSUS REPORT ON SOME MOUNTAIN TOWNS

Johnson County—Paintsville, 1,353, compared with 942 in 1910 and 541 in 1900; Van Lear, 2,656, and Whitesboro, 320.

Magoffin—Salersville, 412, compared with 310 in 1910 and 285 in 1900.

SCHOOL TO SEEK FUNDS TO HUNT FOR THE SLAYER OF MOUNTAIN TEACHER

Lexington, Ky., Sept. 29.—Since the officials of Harlan county have been unable to solve the mystery of the assault and murder of Miss Laura Parsons, teacher of Pine Mountain Settlement School, the institution has taken up the task of running down the criminal and in lieu of endowment to push search has appealed to the public for funds to aid in the detection and prosecution of the guilty person.

Governor Morrow has offered a reward of \$500 to aid the fund.

The Harlan county grand jury adjourned without returning any indictments in the case.

WAYNE COUNTY FAIR OCTOBER 1st AND 2nd

The Wayne County Fair will be held at the county seat Friday and Saturday, October 1 and 2. An enjoyable time is anticipated and a number of cash prizes will be awarded. At 11 o'clock a. m. on each day Bob Shank will give an airplane exhibition.

HARDING AT ASHLAND

A special train on the Big Sandy division carried about 200 Republicans to Ashland Wednesday to hear Senator Harding speak. There was room on the train for about twice as many as went.

The special train was annulled for the return trip and the people came back on the regular train.

BUY A HOME.

Instead of paying rent why don't you buy a home. We will make terms almost as easy as paying rent. It is said the United States is short one million homes and it will be a long time before the pressure is relieved.

DR. MARCUM IN AUTO WRECK.

As Dr. F. D. Marcum was on his way to see a patient last Friday night, about the midnight hour, in backing his automobile from a railroad track, near Neal station, the machine went over an embankment and the doctor was pinned beneath the wreck and unable to extricate himself. He remained in the precarious and uncomfortable position until 7 o'clock Saturday morning when he was discovered by the railroad section men and released from under the car. He had three ribs broken but was not dangerously hurt. He did not get to see his patient, but Dr. Rife was summoned and was not aware that another physician was a prisoner by the roadside as he passed along. The automobile was not badly damaged.—Ceredo Advance.

CENSUS OF SEVERAL EASTERN KENTUCKY COUNTIES

Wolfe county decreased 11 per cent in 10 years.

Harlan increased 19.6.

Johnson county increased 12.2.

Magoffin gained 1.5.

Letcher grew 130.7, the largest increase yet reported for any county. It is due to the coal development.

MASKED MEN PLY BOOTLEGGER'S TRADE

Prestonsburg, Ky.—Masked men, who walked the streets of Blueysville Monday night were bootleggers from Quicksand Creek, Knott county, officers learned today. They were disguised so that buyers of their wares could not swear to their identity before the grand jury.

TWO MILLIONS FOR BIG SANDY

\$2,000,000 have been appropriated by the C. & O. railroad for improving the Big Sandy division. The roadbed is to be repaired and improved, slides are to be very greatly lengthened, grades reduced, and other needed betterments made.

This is not coming any too soon. The service is very poor and wrecks occur almost every day because of the bad condition of tracks. There is no busier piece of road than the Big Sandy division and the valley is developing as fast as the limited railroad facilities will permit. A double track is the greatest need.

Hotel at Garrett, Ky., Damaged by Explosion

The Hotel at Garrett, Floyd county, was partially wrecked Monday morning about 3 o'clock by an explosion of dynamite. A store adjoining the building was also damaged. Two men were slightly injured. They are P. D. Cubeller and Frank Davis, union labor organizers. There is no clue to the persons who caused the explosion. The loss is about \$20,000.

Miss Nellie Peters and M. J. Murphy Married

This announcement will be news to many friends of the young couple, Miss Nellie Peters and Mr. Marcellus James Murphy.

They were married at the Hotel Ventura in Ashland on Wednesday evening of this week, by Rev. Cline, so we are informed. Only one or two friends witnessed the ceremony.

The bride is the youngest daughter of Mr. and Mrs. J. B. Peters and is an attractive young lady. Mr. Murphy is brother of Mrs. W. H. Castner, of Louisa. He is in the employ of the C. & O. railroad, with headquarters at Logan, W. Va.

These worthy young people will have the best wishes of a long list of friends.

U. S. Troops to be Withdrawn from Mingo

Gov. Cornwell has agreed to have the soldiers withdrawn from the Mingo, W. Va., coal fields who Sheriff Blankenship appoints 100 deputy sheriffs to maintain order. The men are to be approved by Judge Damron.

COUNTY JUDGE'S SALARY.

The salary paid the Judge of the Lawrence County Court is ridiculously low, being only \$500.

The only way to increase it is for the fiscal court to make an order to take effect for the next term. The law prohibits an increase for any officer already installed.

This is a matter that should receive the attention of the court in time. No man in moderate circumstances can afford to take this office for the present salary and devote the time to it that the interests of the public demand.

SEVEN YEARS FOR HANNAH.

The unwritten law failed to free Ellen K. Hannah, who shot and killed Jim Dillon at Dingers a few weeks ago, the jury returning a verdict of murder in the second degree. Hannah was sentenced Tuesday morning by Judge Damron to serve seven years in the penitentiary.

ENTIRELY SATISFIED.

(Conversation overboard on a street in Louisa this week)
"Are you going to Ashland to hear Harding speak?"
"No, I heard Hughes in Louisa four years ago."

TWO CONVICTIONS FOR FELONIES

MILT CAPERTON AND JOHNNIE JARRELL GET PRISON SENTENCES.

In the Lawrence Circuit Court Mil Caperton was given a sentence of two years in the penitentiary for striking Mr. Clay with a deadly weapon. Mr. Clay is about 65 years old and was summoned to help the Marshal of Louisa put Caperton in the city jail. It was while resisting that he struck Mr. Clay.

Two other cases against him were continued. An effort is being made to secure a new trial.

Johannie Jarrell, indicted for robbing D. C. Spencer's store, pleaded guilty and agreed to accept a sentence of two years in the penitentiary. The Commonwealth's Attorney agreed to accept that kind of a verdict. G. W. Castle, attorney for Jarrell, made a talk to the jury in support of this agreement. Then, the jury did a thing that never before occurred in the Lawrence Circuit Court, nor probably elsewhere. Instead of fixing the sentence at two years they cut it to one year. No evidence was heard by the jury. All they knew was that Jarrell confessed and was satisfied with two years. Comment is unnecessary.

Little Estep was acquitted on the indictment for issuing a cold check.

MORROW STARTED SOMETHING HE DID NOT EXPECT

The following item demonstrates the great regard in which President Wilson is held by the people, in spite of the organized efforts of politicians to discredit him:

Owensboro, Ky., Sept. 28.—When Governor Edwin P. Morrow, speaking here tonight, first mentioned the name of President Wilson a demonstration followed. "I want those who have been applauding to listen to what I am going to say about the League of Nations covenant," said Governor Morrow when the demonstration subsided.

Pike County Men Confessed Plot to Dynamite Coal Plant

Pikeville, Ky.—Floyd Cheney, who confessed to a plot to blow up the Borderland Coal Company conveyor, and Arlie Ball, whom he implicated in his confession, were brought to jail in Pikeville today.

Cheney was caught last Tuesday night at the Borderland mine with 31 sticks of dynamite in a sack. Fuses with caps attached and ready for use also were found in the sack. Cheney confessed that he planned to destroy the conveyor which carries coal from the mine opening on the Kentucky side of Tug River to the railroad on the West Virginia side.

He later made a written confession in which he charged Ball with having suggested the plan and said that Ball was only seventy-five feet away when Cheney ran into the mine watchman. Cheney lives in Pike county and formerly was Deputy Sheriff. He later was employed as a watchman at the Borderland company but quit a few weeks ago and joined the union miners.

Notorious West Virginia Moonshiner Caught at Louisa

R. A. Stone arrested a man here Wednesday evening said to be known as the "king bee" amongst moonshiners and bootleggers in Boone county, W. Va. His name is Roman Burgess, alias James Thompson. He is under sentence of two years in the penitentiary and sawed his way out of the jail at Madison recently. There is \$100 reward for him.

When arrested he had two bottles of moonshine and in his traveling bag was a worm for a still. The grand jury here has indicted him for having the goods in his possession.

Jas. B. Skirvin, of Ashland, was appointed second alternate candidate for the United States Military Academy at West Point last Thursday. He was recommended by Representative Fields.

UNION MEN WALK OUT.

It was reported in Williamson that all the men employed at Alma-Thacker on Blackberry creek, Kentucky, walked out this week, refusing to continue work under the union agreement recently signed because the wage scale is not up to that of the non-union mines since the recent advance made by the latter.

The Alma-Thacker mine was the second tipple mine in the Williamson field to recognize the union, the first being the Superior Thacker Coal Co. whose mine is in Williamson. Up until about two weeks ago owners of Alma-Thacker refused to recognize the union.—Mingo Republican.

TOBE MOORE BURIED AT HIS OLD HOME

Tobe Moore, 19 years of age, died on Wednesday of last week at the home of his brother, Laud Moore, at Ashland. This young man had been in poor health for several years. The body was brought to Louisa and the burial took place last Friday at Mr. Moore's former home in Lawrence county.

Stewart will go to Cincinnati with Mrs. Sturgell and Miss Ella Jay will remain there until Mrs. Sturgell returns from Ann Arbor.—Ashland Independent.

KENTUCKY OIL ADVANCES 25C

The price of Somerset oil, the name under which Eastern Kentucky oil is known, has advanced from \$4 to \$4.25 per barrel.

This brings it to the highest price ever paid for Somerset.

The re-classification that we have been hoping for has not yet been made. Our people are hoping when this comes it will put Lawrence county oil, as well as that of our neighbor counties, into the \$5 class, at least.

In order to make the development of the high grade Berea oil in Kentucky profitable it is necessary for the buyers to pay a better price. It is deep drilling and the wells are not very large on the average.

CHAPTER ELECTS OFFICERS.

At the meeting of Louisa Chapter No. 95, R. A. M., held last Friday night, the following officers were elected for the ensuing year:

Pike County Deputy Sheriff Gets 5 Years

Pikeville, Ky.—Jakle Blankenship was voted out quick justice here when he was given a five-year sentence for shooting and killing Perry Dethon at Middlesboro, September 15.

Blankenship was a deputy sheriff, and was employed as guard by the Majestic Collieries, located in the Tug River coal strike zone. The tragedy took place at night, and had its inception in a number of shots being fired within the mining town.

Blankenship, in quest of the offender, went to the home of Dethon, where after some inquiry and delay, during which Dethon fired his pistol out of the window, Blankenship went inside.

Then, after some discussion and drinking, during which Mrs. Dethon intervened to prevent trouble, Blankenship fired the fatal shot.

Blankenship claimed Dethon was pointing his pistol at him. Mrs. Dethon contradicted Blankenship's statement.

Sam Crabtree Escapes From the Penitentiary

Frankfort, Ky., September 26.—Harry Foster, negro murder, who escaped from the penitentiary here yesterday, was captured early to-day near Midway by Victor Laughlin, a former prison guard. He was returned to the penitentiary.

Sam Crabtree, Johnson county convict, who escaped with Foster, is still at large.

Foster said he did not take the same route as Crabtree when he walked out of the prison stockade. He met a guard, he said, who asked him what he was doing out of the prison. The negro replied he was on his way to the institute for feeble minded to do some work. He asserted the guard did not question him any further and made his way to Woodford county, where he was captured.

PRIORITY CAR ORDER CONTINUES IN FORCE

Washington, September 27.—Representatives of the state of Kentucky and Kentucky coal operators conferred here this afternoon with Commissioner Atchison, of the Interstate Commerce Commission, to protest against orders of the commission giving priority on cars to public utilities outside Kentucky.

Following the conference the Kentuckians intimated that they had been given no assurance that the orders would be rescinded, but they said they were hopeful some action would be taken.

The fact that many of the mines in Kentucky are not receiving any cars whatsoever for shipment of coal to consumers in Kentucky, as a result of the orders given priority outside the state, was pointed out to the Commissioner, and specific instances where mines would be forced to close down unless cars can be obtained were cited.

After Thorough Trial a Detroit, Mich., Man Endorses Pe-ru-na

The following letter written from Detroit, Michigan is no snap judgment expressed on the merits of Pe-ru-na, the well-known catarrh remedy, but rather a mature, sober opinion formed after a full year's trial.

This is the way Mr. Michael Fako of 608 East Palmer Avenue, in the Michigan Metropolitan, writes: "After using PE-RU-NA for about one year I say I have found it a very good medicine for catarrh. It has helped me a great deal and I am very well satisfied. I have gained in weight, eat and sleep well, my bowels are regular and better color in my face."

"PE-RU-NA has done wonders and to me is worth its weight in gold. I shall continue to use PE-RU-NA as long as I live and recommend it to my friends who are troubled with catarrh. Nothing can be more convincing than an endorsement of this nature from an actual user. There are many people in every community whose experience, in using Pe-ru-na, has been identical with Mr. Fako's. It is the standby for coughs, colds, catarrh, stomach and bowel disorders and all catarrhal conditions. Put up in both tablet and liquid form. SOLD EVERYWHERE."

TO SORGHUM GROWERS

Owing to the fact we have ceased to contract for sorghum at a stipulated price the report has gone out that we do not desire any additional sorghum. This is a mistake. We are anxious to secure all of the sorghum which we can possibly buy.

Owing to the fact that there now exists only about fifteen days until sorghum will be moving we are contracting only on market price. This does not affect people who have signed contracts with us and only has reference to people who have no contracts whatever with us. We will be in the market for approximately two thousand barrels of sorghum but we will contract for no sorghum from now on except on the basis of market value each day.

ANNOUNCEMENTS

We are authorized to announce CHARLEY EDWARDS as a candidate for the Republican nomination for County Court Clerk of Lawrence-co., at the primary to be held in August, 1921.

Friday, October 1, 1920.

Gov. Cox will speak at Ashland before the close of the campaign.

The straw vote so far taken in Kentucky shows Cox the favorite by a large margin.

The price of sugar is getting down to earth again. The large dealers who hoarded large stocks of it are losing great sums of money, but the public is much relieved.

Out of every hundred dollars spent by our Government since it began \$93 has been spent for war and war purposes, leaving only \$7 out of every hundred for judiciary, legislative and humane expenditures. Of this only \$1 out of every hundred has gone along humane lines. Give us peace and let us reverse these percentages.

Congressman Fields has a record in Congress that is not surpassed for honesty, fidelity and close attention to duty. He stands for the right at all times. There never was a time when it was more important to elect a clean Congress, composed of men who stand for the interests of the great common people, and not for the domineering rich who formerly misruled the United States.

Any lawyer can tell you that the Constitution of the United States is supreme and that Congress can't make a law or a treaty of any kind that conflicts with it. Therefore, no League of Nations or any other such thing can cause a single soldier to be sent from the United States to other countries without Congress so directs by specific action every time such a proposition arises, just like it has always done. The constitution can not be changed on this or any other provision except by submitting an amendment to the Legislature of each State and having three-fourths of them ratify it. Anybody who says the League of Nations can send our soldiers to other countries is either grossly ignorant or deliberately lying.

If we do not go into the League of Nations we must maintain an army and navy so large that enough volunteers can not be had to keep them up to requirements and the draft will then be the only means of filling the ranks. Think of the taxes required to support such forces! Think of the sacrifices we must make to defend ourselves against the world! Think of the billions of German indemnity we lose if we fail to accept the treaty.

The League of Nations was created to abolish wars and to disarm the nations so there will no longer be any necessity for supporting large armies and navies. No more brazen lie was ever told in a campaign than that the League will send our boys to fight in other countries. It will prevent them from going, and no power except our Congress can send them. Congress can send them without the League; it has sent them time and again. The League will render such action unnecessary.

Showing Fall Modes in Vogue Hats

Hand tailored in New York, and nothing we can tell about them in advance of your seeing them will be so important as the fact each Vogue Hat shows some special talent for enhancing a particular type of face.

A flawless flower garden is as subject to criticism as this showing of VOGUE HATS ready for you to see. The shapes are divertingly original and a distinct appeal of youthfulness lies in the use of colors contrastingly intriguing or artlessly harmonizing.

JUST SMILE AND FORGET.

Oh, do not be discouraged, little heart,
This world is not a wilderness of woe;
And if sometimes the brambles catch
And tear,
Don't let the scratches vex you so.
For all the little worries that befall,
The small vexations that so grieve and fret,
Tomorrow they will vanish into air;
Then smile, dear heart, just smile and
then forget.
And if today the skies are overcast,
Somewhere we know the sun is shining
still;
His silver radiance brims the lowering
clouds,
And we may catch its glory if we will.
And it is good to strive though we
should fail,
And good it is to suffer and be strong;
And if we lift our faces to the light,
The darkest day will ring to evening
song.
And when our feet are weary, and the
road
More toilsome seems with every pass-
ing day,
To share our every burden, little heart,
The Helper walks beside us all the
way.

Independence is a fine thing but
many people take a belligerent attitude
toward others and misname it indepen-
dence. There is nothing as essential
as independence of thought and action
if you intend to get anywhere in this
world, but you can't always live as if
you were the only person in the world.
You must take others into account oc-
casionally. Don't go about continually
saying that others must take you as
they find you, and fool yourself into
believing that your attitude is praise
worthy. People will soon take you at
your word and leave you alone and
you'll find you can't be entirely inde-
pendent of your friends and be happy.

Plan out your life on a big scale,
whether you are a farmer's daughter,
or a shepherdess among the hills, or
the flattered pet of a drawing-room
filled with statuary and pictures and
bric-a-brac. Stop where you are and
make a plan for your lifetime. You
cannot be satisfied with a life of fri-
volity and giggle and indiscretion.
Trust the world and it will cheat you
if it does not destroy you. The Re-
doubtable was the name of an enemy's
ship that Lord Nelson spared twice
from demolition, but that same ship
afterward sent the ball that killed him,
and the world on which you smile may
aim at you its deadliest weapon.

To keep young for the sake of one's
children is a duty which few parents
fulfill. A man who cannot always
cheerfully follow the commands of his
superiors in business expects his child
to follow his commands without hesi-
tation and a great many times simply
because they are commands and not
because they have any special merit.
About ninety-nine per cent of the
fathers of this country when they were
small made a silent vow that when
they became fathers, their sons should
never be made to take a bath. Some
of you fathers just remember that vow.
Of course we don't mean that you must
live up to the vow but when your son
pouts at the prospect of a bath use a
little understanding and sympathy.
Don't try to tell him what a "good boy"
Papa was when Papa was young be-
cause he has observed enough of hu-
man nature to realize that boys are
rather generally off the same strip and
he won't believe a word of your "an-
gel" story. Live over your own youth
in your children and you will be sur-
prised at the way the difficulties of
rearing and training have been mini-
mized.

It has always seemed that the strong-
est argument for immortality is the
discontent and discouragement we suf-
fer in this world. It is beyond the
possibility of thought that we would
be created and thrust upon this earth
to meet all the unhappiness we do and
to leave it with hopes and wishes un-
fulfilled and go out to meet nothing.
As someone has said the life we lead
here is merely the first stage and death
is merely an episode. This thought
should bring comfort to many a heart
who sees this thing we call death cut
into so many lives with seemingly
devastating power.

Young man, remember this: All the
friends who can gather about you can
never make your life a success; nei-
ther can your enemies make it a failure.
It rests with you to determine whether
you shall succeed or fail. Just put
this thought on your memoranda, and
study it carefully.

The following case is but one of
many occurring daily in Louisa. It is
an easy matter to verify it. You can-
not ask for better proof.

K. F. Vinson, Water St., Louisa,
Ky.: "Whenever I have had a spell of
kidney trouble or rheumatic twinges,
I have bought a box of Doan's Kidney
Pills at the Louisa Drug Co.'s Store.
They have removed the pains from my
back and took the rheumatic twinges
from my limbs. My back has some-
times been lame when I have done too
much lifting and I have been subject
to rheumatic twinges after taking
cold. The trouble has generally been
in my limbs, from my hips down. My
kidneys have acted too frequently,
bothering me at night by causing me
to get up too often. All of these
symptoms have disappeared after I
have used Doan's Kidney Pills and I
have felt like a different person, being
strong and active."

Price 60c. at all dealers. Don't simply
ask for a kidney remedy—get Doan's
Kidney Pills—the same that Mr. Vinson

FOR TORPID LIVER

Tennessee Lumberman Talks of His Successful Use of Black-Draught for Colds and Headaches.

Jamestown, Tenn.—"I have used Theodor's Black-Draught for years, in fact it is the only liver medicine that does me any good," says Mr. L. A. Ragn, a well-known lumberman of this place. "When I was single, I used it for headaches, and especially if I got a cold and feel feverish, I take a good dose of Black-Draught, and it sets me right."

"Since I have been married, I have used it in my family, and never have found its equal for torpid liver or disarranged stomach, especially with children. I can recommend Black-Draught, and gladly do so."

Every member of the family occasionally needs the assistance that Black-Draught can give, in helping to cleanse the system and relieve or prevent the troubles that come from a lazy, torpid liver.

If your liver is not doing its duty, you may suffer with headache, constipation, biliousness, indigestion, etc. Unless relief is obtained, serious sickness may result. In its long and successful use, Theodor's Black-Draught has been found in thousands of cases to relieve such disorders, by stimulating the liver to do its important work.

Ask for Theodor's Black-Draught, and insist on the genuine. NC-137

WHAT'S DOING IN POLITICS

The Democratic Organization in Louisville will probably go into the courts to have their selections for election officers nullified in four precincts in the Tenth Ward of Louisville. In two of these precincts no white men live. In two others the three or four white men residing there are Republicans.

The Democrats, therefore, asked the election commission to permit the appointment of white Democrats from other sections of the city to serve in these precincts.

The commission, controlled by a Republican sheriff and a Republican election officer, not only declined this request, but instead appointed negro election officers in service for the Democrats. This action was a clear violation of the law, as none of these negroes were registered as Democrats. It is from this ruling that the Democrats propose to appeal to the courts.

This incident is reminiscent of the carpet-bagger practices in the South by the Republicans after the Civil War, when negro alliance-holders were forced on the white people. The whole occurrence is a significant indication of what continued Republican rule in Kentucky means.

The leading negro newspaper of Louisville has put forward a candidate for the Louisville Board of Education. From this it is but a step to mixed schools in Kentucky. The same paper is also exhorting the negro voters of Louisville to vote against the million-dollar issue of school bonds because most of the money is to be used for white schools.

Lacking the courage of Senator Beckham and James H. Richmond, of Louisville, candidate for Congressman, on the Irish question, their Republican opponents have given a great exhibition of dodging, following the example as they set by their national leader, Warren G. Harding.

Beckham and Richmond came out in manly fashion against recognition of the present so-called Irish Republic. So far Ernst has not had the courage to answer the question and Ogden has straddled it in a six-page letter. "I can not give definite answer," says Mr. Ogden, "because conditions are shifting." True enough, and Congressmen are shifters.

The Democratic State Headquarters at Louisville will shortly scatter broadcast over the state a circular distributed by Republicans of the Chicago convention against Warren G. Harding. Harding is on record in two speeches in the Congressional Record in favor of dollar wheat. "Under normal conditions," says Harding, "dollar wheat makes it (farming) a very profitable occupation." The Farm Defense League of Ohio distributed this handbill in the effort to head off Harding's nomination and is still fighting him all over the nation.

A recurrence of race riots in Chicago, where the negro dive keepers are given special privileges by the Republican administration proves what a danger to the community it is when any one element is pampered for political purposes. Under Republican rule in Chicago this policy has already led to two serious race riots.

The publication in the Republican organ, the Louisville Herald, of the successful settlement of international quarrels by the League of Nations is in curious contrast to its editorial propaganda that the League will breed wars. This story tells how the Council of the League prevented war between Poland and Lithuania and between Finland and Sweden over the Aland Islands. In both of these controversies peaceful process of mediation prevented wars, fully vindicating the League of Nations.

The first woman Democratic mass meeting ever held in Louisville was such a wonderful success that even Republicans were astounded. The best citizenship of Louisville filled historic Phoenix Hill Hall to overflowing and inspired the workers of local and state organizations to new enthusiasm to carry the state for Cox.

It is less than one week until registration day. Every woman's duty it is to register next Thursday so that she may vote in November in help offset the eighty thousand negro women voters which will be cast solidly by the Republican party for the Republican candidates.

If Harding is elected in November you may have a negro postmistress in your town next year. Last week a delegation of negro men and women visited the Blinnie Stone at Marion to vow unending support to the Republican party. One of the speakers, a negro, informed Senator Harding that the negro women expected their share of patronage in proportion to the number of negro women votes cast. In reply he promised full rights of citizenship to his colored audience. The appointment of a colored postmaster in your town or a negro collector of internal revenue in Louisville will therefore give no surprise.

WHAT IS DOING ON THE POLITICAL BATTLE FIELDS

While speaking in the west, Gov. Cox was met by a drive put on by the National Republican committee in regard to the wet and dry proposition. Every newspaper that could be influenced in that direction appeared at the same time with the same matter. And then something happened, as it always does when they touch a live wire like James M. Cox—one of the smartest, most aggressive and courageous men who ever ran for President.

Adopting the best approved military tactics, the nominee's defense was a dashing attack upon the assailing forces, in which his rival for the Presidency, Warren G. Harding, was called upon to make explanations of his actions toward prohibition movements in the United States Senate and to account to the dry forces for alleged ownership for 36 years of stock in a Marion brewery.

Using precisely the same strategy of the opposition, the Governor launched his counter offensive through George F. Cotterill, who is to be the unopposed Democratic nominee for United States Senator for the State of Washington.

Introducing the Governor, he said, among other things:

"If there are to be comparisons of records of aptisan candidates upon this question the least that can be said is that Governor Cox, with his consistent record of thoroughgoing law enforcement, obtained prior to the prohibition era the closing of saloons in Ohio on Sunday.

"Other moral advances of the existing laws will stand out in bold relief in comparison with the public record of Senator Harding in Ohio and in the United States Senate, where the score shows 30 votes on the wet side on matters pertaining to prohibition as against only two dry votes, and those after the State of Ohio had adopted prohibition and re-elected Governor Cox to enforce it.

"If this be a matter of comparison it also is well to note in this connection that for 20 years Senator Harding himself has been a brewer, owning stock in a brewery in Marion, Ohio."

Attention also was drawn to the fact that it was only through the election of a Congress that any change in the existing prohibition legislation could be effected and that the past deeds of the candidate were a guarantee that the law would be enforced.

The Governor's meaning rejoinder to this statement was typical, indicating that he recognized that the drive was a piece of politics and not a serious concern for the cause of prohibition. He said:

"As a progressive in Government, I know when an event has passed by and become a part of yesterday. The reactionary rarely does."

No Panic Possible.

There will be no panic in the United States and the cost of living is coming down.

Ex-Senator Chauncey M. Depew insists that he is seriously at variance with calamity howlers who predict all sorts of dire things for this country.

"There will not be any panic," Senator Depew said. "The country is on too sound a money basis for that. The cost of living will come down gradually. It will take time. I remember when the Civil War closed. That was in 1865. But the cost of living did not get down to where it belonged until 1873."

Senator Depew is one of the most prominent Republicans living today.

England Has No Advantage.

Senator Owen, of Oklahoma, was speaking a few days ago on the League of Nations.

One of the questions asked him by a woman who wanted to know how to meet the statement that England had six votes to none. That, said Senator Owen, is not a true statement.

Canada, he said, demanded a separate voice because it did not wish the English representative to voice its views on matters like Japanese immigration. It was impossible, he added, to take population as a basis, for when the yellow race would have more than the white. It thus was decided to give every country an equal voice in the debating assembly of the League, he asserted.

On questions like Japanese immigration, he said, Canada, the United States, Australia and New Zealand will vote together. In the council, the Senator pointed out, unanimous consent is required; and one vote will interpose an effective veto. If the voting issue in the assembly counted for anything, he said, the United States would have the votes of more than a dozen dependencies.

MRS. GRUNDY.

In Loving Remembrance

Inaac Ratcliff, aged 86 years, was laid to rest in the Caney fork graveyard July 7th. He had been a member of the M. E. Church South for about 25 years and lived a true Christian. For the last three years he had made his home with his son Charlie. He leaves a wife and five children. He was a good husband, a good father and a good citizen and was liked by every one. He will be sadly missed by his friends as well as his loved ones. Weep not, dear wife and children, but just prepare to meet him in that world where there'll be no sad goodbyes and pining never comes. He was sick only 12 days and bore his suffering very patiently.

"DOES WHAT THEY
SAY IT WILL DO"

HAMPTON HAD NOT SEEN A WELL DAY IN SIX YEARS—DREADED TO SEE NIGHT COME.

"At the time I began taking Tanlac," said Marcus A. Hampton, 118 Pope street, Louisville, Ky. "I had not felt well a single day in six years."

"My stomach was so badly out of order," said Mr. Hampton, "that no sooner did I get through eating than I would bloat up with sour gas and have the worst sort of pains shoot through my chest. I could not even eat the lightest kind of foods and feel comfortable afterwards, and at times could not retain anything I had eaten. I had lost fifty pounds in weight and was alarmed about my condition, for often I had such bad spells that I thought my time had surely come. I actually dreaded for night to come, as I could not sleep much and always felt as if I had in the mornings as on going to bed, if not worse."

"Well, I was never able to find anything to give me an appetite and stir me up hill until I got Tanlac. Almost as soon as I began taking this medicine I commenced to climb. I am just now on my fourth bottle and have regained ten pounds of my lost weight already."

"My appetite soon got a new start, and my stomach trouble began to lose its grip, and when I finished my second bottle I was feeling like a new man. Ever since then I have been eating just anything I want and I always feel fine afterwards. The gas has stopped forming on my stomach entirely and I never feel a touch of indigestion. I am always glad when night comes now, for I can sleep like a child and get up in the mornings feeling fine, ready for a hearty breakfast and a hard day's work. I am glad to recommend Tanlac, for it is one medicine that I believe will do all they say it will."

Tanlac is sold in Louisville by Mrs. J. H. Reynolds.
